

# Sky and stage Tower MRT1

MRT1 incorporates our M290V truss system and is our smallest rigging tower. The size and weight of the construction makes this ideal for small events, bands, and touring promotional road-shows.

height m [ft]	8	26,25
capacity with motor kg [lbs]	750	1653,47
self weight kg [lbs]	178	392,40
ballast kg [lbs]	130	287

### COMPONENTS REQUIRED TO CONSTRUCT ONE MRT1 TOWER

1	MRT1 01	MRT1 QCV corner	1 piece
2	MRT1 02	MRT1 headsection	1 piece
3	MRT1 03	Screwjack adapters MRT1	2 pieces
4	MRT1 04	MRT1 stabiliser attachment horizontal	2 piece
5	MRT1 05	MRT1 stabiliser attachment vertical	1 piece
6	MRT1 06	MRT1 stabiliser tube 60 x 6 mm	2 pieces
7	MRT1 07	MT1 07 hinge part (set of 4pcs)	1 piece
8	MRT1 08	Screwjack 40 cm	6 pieces
9	QTV1000	M290V quatro 1 m length	1 piece
10	QTV3000	M290V quatro 3 m length	4 pieces
